

# Mullion-Transom Framed Glass

KW SYNERGY  
since 1997

\*NON-LOAD-BEARING enclosure.  
Transfers dead, live & wind loads to  
main structure.

\*Full-scale mock-up test may  
to be required to verify system  
performance.

\*Consider durability of structural  
sealant under long-term UV  
exposure.

\*Design for thermal & building  
movement allowance to prevent  
water leakage.

## Legend

- Bite
- Pressure Cap
- Spacer Gasket
- Silicone Sealant
- Anchor Bolt
- EPDM Spacer
